To Whom It May Concern,

I am pleased to recommend Oscar Stommendal, who served as a summer intern in our department during the summer of 2025. Throughout his internship, Oscar conducted an in-depth investigation into the application of quantum computing within the telecommunications industry. His strong work ethic, dedication, and ability to collaborate effectively greatly benefited our team.

Oscar demonstrated excellent research and presentation skills, clearly conveying complex concepts and contributing valuable insights to our projects. I am confident that Oscar will be an asset to any team or organization he joins.

Please do not hesitate to contact me if you require any additional information or clarification.
